9. Pedagogy

Student learning – pedagogical support:

- Student Board Room (SBR) SBRs are designed to simulate the decision making which
 happens in a board room in the real business world. The SBRs are one of the formats of group
 work in the proposed GCGM course that will help reinforce teamwork, preparation, leadership
 and in-class contribution.
- Group work / presentations / projects The ELO/Zoom online delivery platforms provide students virtual 'breakout rooms' to collaborate and work on group assignments, presentations and short projects. It is planned that similar to the practice for the current ongoing Online EMBA course delivery this feature will be extensively used for the proposed GCGM course for both formative and summative assessment. This will enhance both peer-learning and provides students to socially connect and network with peers who are located in different locations.

SPJain School of Global Management

Course (Program) Office – Each cohort of the proposed GCGM will be assigned a dedicated

support who will also track student access, enrolments and progress.

10. Assessments and Conduct of Examinations

• A range of well-thought and planned ongoing assessment methods and tools have been used

in the design of each unit towards providing adequate assurance of the unit learning

outcomes and the overall alignment of the assessments to achieve the course learning

outcomes. Each unit at S P Jain is designed to help students achieve the prescribed learning

outcomes as well as develop essential academic and professional skills such as writing, editing,

research, analysis, listening and teamwork. The overall assessment regime has been approved

by and is continuously monitored by the School's Academic Board.

• Beside specific classroom activities (formative assessment), most of the assessments are

summative. Assignments are both individual and group-based, varying across units. The

assessment criteria are designed to gauge the intended learning outcomes of the unit.

• Students will receive timely and constructive feedback on all progressive forms of assessment

to assist their learning and preparation for future assessment. All assessment results will be

held in the School records system on PeopleSoft.

• S P Jain has engaged several quality assurances, moderation and validation measures to

ensure its assessment processes are fair and accurate. The Dean / Course Director coordinates

references to external committees, including professional industry experts, leading academics

from other institutions review these measures, as well as benchmarking against institutions of

similar standing to S P Jain and validation through our own Academic Board.

At the end of each term students will be required to provide feedback on unit content and

academic staff performance, and any feedback on the form and effectiveness of unit

assessments is welcome at that time.

Individual and Group Assignments

CRICOS Provider Code: 03335G

Consistent feedback from employers confirms their strong expectation that graduates have

highly developed teamwork skills. S P Jain recognises this, and students will gain knowledge

on the dynamics of good teamwork as well as having many opportunities to practice and

refine their skills.

Assignments may be designed for either individuals or groups. Normally, the outcome of an

assigned task will be summarised in three or four typewritten pages. If exhibits, project reports

or models are constructed, these are to be explained within the page limit. A lecturer will

assess an assignment more highly where the topic is treated in depth and statements are well

documented, as opposed to a superficial treatment and data-free conclusions. When an

individual or group selects the topic for the assignment, the choice of topic is an important

consideration in the assessment.

The assignment will be expected to include a specific statement concerning the topic, the

reason for choosing that topic, as well as an in-depth analysis of the topic. It will end with a

set of conclusions drawn from the analysis and the reasons for these conclusions. In most

units where group work is prescribed, there may be an element of peer evaluation in the

overall assessment scheme. This element will be moderated by the lecturer to limit

dysfunctionality and bias.

Class Contribution

In corporate life, business managers interact with others mostly orally and spend relatively

less time reading or writing reports. For this reason, oral skills are given a high priority at S P

Jain. The classroom is a laboratory where students practice persuading their peers on the

correctness of their approach to a topic. This style of teaching fosters a discovery-driven

mindset and builds skills. Most units have 15% - 30% of their evaluation based on class

contribution. Some characteristics of effective class participation include:

Points made are helpful in increasing understanding.

Comments consider ideas offered by others.

Comments show evidence of a thorough reading and analysis of the case.

The participant distinguishes among different kinds of data such as, facts, opinions,

assumptions, and inferences.

- Points illustrate a willingness to test new ideas.
- The participant interacts with other members of the class by asking questions and challenging conclusions.
- Comments are concise, accurate, relevant and timely (CART)

Problems, in class exercises, quizzes and exams

 Quizzes are impromptu tests comprising short-answer or multiple-choice questions based on material from lectures, readings or discussion groups, and will commence early in each term ranging 20% - 25% of the overall unit assessment. Students usually take written, invigilated individual examinations at the end of the term. The exams typically include short essay responses to material covered in lectures or readings ranging 30% - 40% of overall unit assessment.

Assessment Submission

- Assignments must be turned in on time. Extensions for deadlines may be granted only in extreme circumstances. The decision to grant or refuse an extension is made by the faculty in coordination with the GCGM Course Office. Requesting an extension does not guarantee that it will be granted. Every assignment, whether as hard or soft copy, must use the appropriate front-page template. Every Individual assignment should be saved by the student Roll no and every group Assignment by their group number. Assignments saved otherwise and without front page details will not be accepted. Students will receive a soft copy of the template via email from the Course Office.
- Processes and Guidelines for Plagiarism control for all soft copy submissions
- This policy applies to all electronic submissions e.g. DOCX, DOC, PDF, TXT, ODT, ZIP, RTF,
 Excel, PowerPoint, HTML and HTM files by all students while enrolled at the S P Jain.
- All electronic assignment submissions will need to be verified through the Turnitin plagiarism software. Students should keep a copy of every assignment they submit.

Release of Academic Results

• All grades are posted on Peoplesoft, including progressive assessment results posted by

academic faculty. Each student's interim mark for the final assessment will be posted by Program Office and overall course grade will be posted on Peoplesoft by the Office of exams following submission of final assessment marks by academic faculty and subsequent progression through moderation and validation processes and Examination Board review. Final grades are declared after ratification by Academic Board. In the unlikely event of any changes to interim grades, these will be advised to students by the Dean. CGPA is also made available through Peoplesoft.

Assessment Practices and Guidelines

- Assessment should reflect unit content
- Assessment tasks should be matched to desired unit learning outcomes and include the range
 of concepts, thinking processes, skills and attributes, including attributes as set down in the
 stated learning outcomes for the unit
- Assessment should be appropriate, meaning that there should be a match between each assessment task and
- the nature and extent of concepts, thinking processes, skills and attributes, including graduate attributes being assessed
- the level of the unit and
- the mode of study
- Assessment should be reliable, meaning that teaching staff and curriculum planners regularly
 evaluate each assessment task to ensure its reliability in providing accurate and consistent
 information about student performance
- Assessment should be fair and equitable, meaning that
- all students will be provided with adequate and appropriate learning opportunities throughout a unit to enable them to demonstrate their knowledge, thinking processes, skills and attributes, including graduate attributes through the set assessment tasks
- all students will be informed at the start of each course about the assessment tasks associated with a unit, and the assessment criteria for each assessment item
- when marking assessment tasks, all judgments about achievement will be made against stated assessment rubrics
- moderation processes will be an integral part of the assessment system for each unit where
 multiple markers are involved to ensure fair and equitable marking and grading of assessment

tasks and maintenance of standards

processes and practices that are part of the assessment system for any student will be

transparent to teaching staff and the students

assessment systems will be reviewed as part of regular unit reviews

Student Experience and Support

At Student Experience our motto is "Journey is the reward".

Student Experience and Enhancement is a student centric team which provides support and guidance to the students throughout their Student Life Cycle. Each of the 4 campus has a Student Experience Manager who are aptly guided by the Team Leader.

Specific strategies of the team towards support transition includes, assessing the needs and preparedness of individual student and cohorts and undertaking early assessment or review the formative feedback on academic progress and identify needs for additional support.

All the Student feedbacks are analysed and discussed with all stakeholders to address gaps or unresolved issues, both academic and non-academic. Apart from the various SE initiatives and activities like focussed group feedback sessions, chat sessions, coffee or lunches with student groups, buddy programs, the team also engages with them continuously targeting improvement measures, share best practises, all to obtain a favourable learning environment. Alongside this, the student also receives support from the team using online and offline mechanisms. Student progression is tracked, and alerts of risk are raised well before time and help is provided to them to change gears and obtain success.

Every student is encouraged to optimise on each of these opportunities provided by the school and hone their skills to excel not only within the campus but also outside in the larger community.
